We are pleased to announce the return of the DACT Academy for its third edition! This prestigious two-day event features a tailored academic program designed to enrich the knowledge of both young treasurers and more experienced professionals.

The DACT Academy not only provides you with essential professional knowledge but also equips you with crucial job skills and techniques (soft skills) necessary for your role.

WHAT TO ANTICIPATE?

- In- depth knowledge transfer and academic-level information sharing in treasury.
- Engaging lectures led by esteemed educators from renowned national and international institutions.
- Interactive lectures.
- Specialized Soft Skills Training.

Mark your calendar for the kick-off on Thursday, November 14, 2024, at 13:00, extending through Friday, November 15, 2024, until 17:00. The program includes a Meet & Greet, dinner and lunch, and overnight accommodations, all conducted in English. Every participant who completes the full program will receive a certificate of participation!

DEI (DIVERSITY, EQUITY & INCLUSION)

Each year at the DACT Academy, we focus on DEI (Diversity, Equity, and Inclusion). This year, bestselling author Jos Ahlers will lead a session on understanding Generation Z, diving into the dynamics of working across generations. What can different generations learn from one another, and how can they help empower each other?

THE ROLE OF THE TREASURER

Lectures & Training

The role of the treasurer is complex and essential, primarily focused on providing comprehensive support to the organization and the CFO. Key responsibilities include effective management of critical components such as the organization's balance sheet (Corporate Finance Management), financial resources (Treasury Operations), and risk mitigation (Financial Risk Management). Additionally, the treasurer acts as a strategic business partner to the CFO, working closely with essential corporate functions like Control, Tax, Accounting, and Legal. This partnership extends to supporting various units within the organization, including business units and sales teams.

In leading the establishment of policies and ensuring the smooth execution of diverse treasury operations, the treasurer not only manages a team of professionals but also optimizes staffing and promotes team development.

Throughout the DACT Academy, we will highlight these three essential pillars of the treasury profession, integrating our discussions with relevant case studies such as the Silicon Valley Bank situation and current events, including the U.S. elections. We ensure you that participants gain valuable, real-time insights applicable to today's dynamic financial landscape.

HUMAN SKILLS TRAINING

For treasurers who want more!

The DACT Academy offers more than just professional knowledge - it equips you with indispensable job skills and vital soft skills. This year, Debat.nl will be hosting our human skills training on Friday afternoon. The training centered around the theme 'The Art of Negotiating'. The session will be conducted in both Dutch and English. Hurry, as we have limited space for 60 participants. Secure your spot today!

REGISTRATION IS OPEN: WWW.DACT.NL
